Vijayalakshmi group was established in the year 1977 has been an instrumental in providing innovative – value added solutions for Indian Corporate and Multinationals in construction, warehousing and agro trading industry

VISION

To meet the current and future needs in warehousing industry and building strong infrastructure facility in all sectors. Integrating links of agro and non agro supply chain. To avail services simple in a cost-effective method using advanced technology.

MISSION

To provide best in class modern infrastructure facilities with latest innovation and technology for more efficient output.

WAREHOUSING

We started our first warehouse in the year 1977 at Tuticorin as godown operator and then till date we have completed about 1.5 million square feet of ware houses. In which we have sold as per customer needs of about 4 lakh square feet of warehouses. We now operate with six lakh square feet of warehouse; we are in the process of acquiring lands all over Tamil Nadu for constructing chain of warehouses, then to spread throughout the nation in near future.

We can provide warehouses for storage of any kind of material let it be bulk cargo, packed cargo, FMCG goods, agro commodities, machinery and fertilizers.

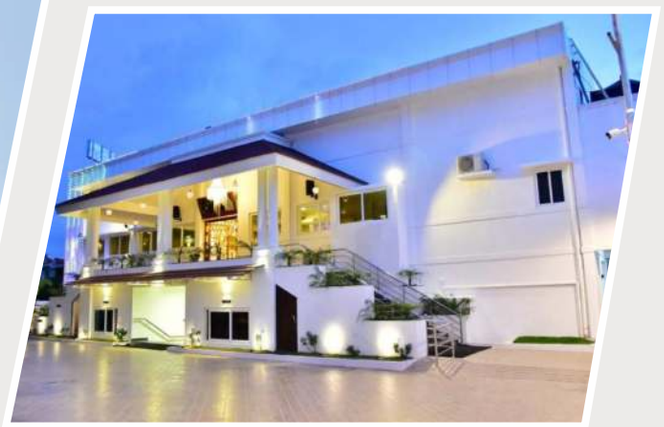

We can assure a time limit for the customer to fulfil their warehouse need in any part of India, by acquiring the land and construct the warehouse on their specification and lease them within the stipulated time.

We lease warehouse at square feet basis, we can do built to suit warehouse at any part of India as per customer needs as a built to suit warehouses as we have leased some models in Thoothukudi, Tirunelveli and Madurai

PEB - We specialize in Pre engineered building as per structural engineer design

INDUSTRIAL /COMMERCIAL BUILDINGS AND WAREHOUSES

We are in to infrastructure development projects we construct all commercial and industrial buildings on turn key basis- as a builder we strictly follow the quality norms ensuring the best to the customers. We have completed about 1.50 million square feet of warehouses which includes 'A' grade warehouse and 'B' grade storage warehouse Container Freight Station, Rice mill, Bottling Plant, Container Yard, Coir Pith Factory, Melamine Plate Factory, Pressure Cooker Factory, Commercial building, RCC road and Bitumen (Tar Top) roads.

Since its inception in 1977, we as a builder always strived for benchmark quality, customer centric approach, robust engineering, in-house research, uncompromising business ethics, timeless values, and transparency in all spheres of business conduct, which have contributed in making it a preferred real estate brand. It is an organization where quality meets excellence; technology meets aesthetics and passion meets perfection.

In our journey we have built about 1.50 million square feet of warehouses, have developed residential plots. Our Group residential projects include presidential apartments, villas, row houses, super luxury apartments, luxury apartments, and moderately priced apartments and plotted development along with amenities such as clubhouse, swimming pool and shopping complex.

We are focused on, contractual projects, road projects, plot developing and land for any commercial and industrial purpose. We have built Container Freight Station on contractual basis. We have developed about hundred acres of land in to storage yard for open storage solutions. We as an Infrastructure/Builder develop yards used for container, timber, scarp storage, granite yards and CAP storage (covered area plinth) used to store commodities in open area by covering them with tarpaulins.

PROJECTS DONE TILL DATED
